SACHIL V S

Web Developer

sachil12346@gmail.com | +91-9539939981 | github.com/targ-dev | linkedin.com/in/sachil-v-s | sachil.netlify.app

PROFESSIONAL SUMMARY

Self-motivated and detail-oriented developer with hands-on experience in the MERN stack (MongoDB, Express.js, React.js, Node.js). Strong foundation in HTML, CSS, and JavaScript, with a passion for building responsive and user-friendly web applications. Excellent problem-solving skills and the ability to collaborate effectively in team environments. Eager to contribute to real-world projects and continue learning as a full stack intern.

TECHNICAL SKILLS

- Frontend: JavaScript (ES6+), React.js, HTML5, CSS3, Bootstrap
- Backend: Node.js, Express.js, REST API Development
- Database: MongoDB, MySQL
- Tools: Git, Postman, VS Code
- Concepts: CRUD Operations

PROJECTS

Concert Booking App (MERN Stack)

Tech: React, Redux, Node.js, MongoDB, Bootstrap

- Shared login for users/admins with JWT-based authentication and role access control.
- Admin dashboard for concert CRUD, user management, and booking overview.
- Users can view concerts, book tickets with quantity limits, and track bookings.
- Enabled PDF ticket generation, download, email delivery, and stock update after booking.

E-commerce Backend (Express & MongoDB)

Tech: Node.js, Express, MongoDB, EJS

- Developed backend logic for user management, product catalog, cart operations, and order processing.
- Used EJS templates with Express routes to handle server-side rendering and form submissions.
- Implemented admin features for product updates, inventory control, and checkout flow management.

Personal Portfolio (React.js)

Tech: React.js, Tailwind CSS

- Created a responsive portfolio using React and Tailwind CSS to showcase projects and skills.
- Integrated smooth scrolling, animated counters, and section-based navigation for better UX.
- Deployed on netlify with Git version control, following clean and modular code practices.

Weather App (Frontend)

Tech: HTML, CSS, JavaScript, Bootstrap

- Integrated OpenWeatherMap API to fetch real-time weather data based on user input.
- Designed a clean and responsive UI using Bootstrap components and custom CSS.
- Implemented form validation and dynamic DOM updates to display temperature, conditions, and icons.

EDUCATION

B.Sc Computer Science

SN College, Kerala University | 2015–2018

CERTIFICATION

Full Stack Web Development (MERN) – MashupStack
